Unlocking the potential, Regional B2B Networking event for SMEs, Malta, 18-19 May 2011

Malta Enterprise invites you to participate at the Euro-Mediterranean Networking Event for SMEs. This event represents an excellent platform for you to personally meet with foreign entrepreneurs, discuss business cooperation over two days. The 2-day event will focus mainly on 1-to-1 meetings between Maltese entrepreneurs, visiting foreign companies. Over 100 delegates have registered from Malta, Germany, Italy, UK, Russia, Libya, Greece, Cyprus, Iceland, Turkey, Luxembourg, Poland and Pakistan. The visiting SMEs will present credible business propositions in the following sectors:

- ICT
- Food and beverage processing
- Education & training services
- Creative industries & audiovisuals
- Renewables and environment

An **FP7 Cafe'** will be running on both days, showcasing Maltese & non-Maltese project consortia looking for FP7 partners. Companies having stands at the FP7 Cafe' will be able to connect with other interested parties via Skype so as to improve the networking. During the event, we shall provide you with a stand, internet connection and a Skype account. Companies that are not able to attend the event may wish to contact you through Skype.

As soon as companies book a stand, they shall also have your detailed profile uploaded onto our site.

This service is provided at **free of charge** but on a **first come, first served basis**.

Register now and join us to strengthen your competitiveness, meet the right persons, gain new skills, access new resources for joint projects and business collaboration!

7th Annual Meeting of SMEs, Competitiveness, Culture and Cross-Border Co-operation: Assisting SMEs to Grow, Innovate and Reach International Markets", 23-26 May 2011, Helsinki, Finland

[The International Network for SMEs](#) (INSME) aims to promote the internationalisation of the national innovation systems, to encourage, facilitate transnational cooperation among innovation stakeholders worldwide, to fostering SMEs' access to existing knowledge. The [Annual Meeting](#) is the right place to take stock of the main Network achievements, to increase **knowledge sharing** among the INSME Members, **learning from other Members' experiences**, from their case studies, also with a view to encouraging and accelerating cross border cooperation activities on a voluntary basis among them. But it is much more than this: for all innovation stakeholders and practitioners, including **policymakers, international organisations, academic experts, business intermediaries, and knowledge networks**, it represents the ideal venue to meet the right players, to discuss the right topics, potentially to identify the right talents, partners, clients, sponsors, investors for their activity. It is a remarkable worldwide window for Members, innovation actors to market their projects, ideas, reaching the appropriate professional audience. It is about a **meeting of minds with a "brain cross-fertilization" effect**. Registration online as soon as possible at: <https://events.congreszoo.fi/INSME2011/en/ParLogin.jsp>
The REGISTRATION DEADLINE is 10th MAY, 2011!! Registration is mandatory to confirm any participation.

Workshop: Smart Specialization: the future of EU Regional Innovation Policy, 30 May 2011, Rome, Hilton Hotel Fiumicino Airport

Smart Specialization is a brand-new model proposed by the DG Regio, based on the DG Research & Innovation work to channel the next round of Structural Funds resources to regions, which could have a strong impact on European Regional Innovation Systems and their Supply Subsidiaries. By attending the workshop participants will:

- have a preview of the new EU Policy approaches for Innovation Policies at regional level for 2014-2020
- understand the scope and aims of Smart Specialization Strategy
- share insights and ideas with colleagues and experts on possible forthcoming scenarios for Innovation Intermediaries
- have the opportunity to prepare a positioning of their organization regarding negotiations with Regional Authorities
- obtain the know-how to expand their network at international level together with colleagues & Innovation Policy experts

Who should attend: Directors or Managers of Innovation intermediary organizations such as Regional Development Agencies, Cluster management companies, Technology Transfer Centres, Research centres, Centres for Excellence, Business Innovation Centres, Business Incubators and Financial Agencies

Conference Regions for Economic Change - Fostering Smart & Sustainable Growth in Cities & Regions, 23-24 June 2011, Brussels, Belgium

Following the publications of the EC's communications on the **EU 2020 Flagship Initiative Innovation Union**, on Regional Policy contributing to smart growth in Europe 2020, the conference will highlight **excellent projects, initiatives** from cities and regions, both within the main conference workshops as well as within the RegioStars awards ceremony.

The conference will further present and discuss a range of key tools and networks for smart and sustainable growth in cities and regions and discuss the concept of "smart specialisation" and its practical implications for regional development and innovation strategies. In this context the Commission will launch its "Smart Specialisation Platform", a new initiative designed to offer assistance in drawing up regional smart specialisation strategies.

Please note that seating for this year's conference is limited to 400 participants with preference given to decision-makers, Structural Funds managers from EU regions and key stakeholders of the EU regional policy and innovation communities.

Funding for Infrastructure Projects, Supporting Invaluable Economic Growth, 22 June 2011, Barbican London

Are you aware of the government's infrastructure investment programme which will provide £200 billion of investment over the next five years? We announce the launch of a brand new national conference which will look at how infrastructure provides the crucial link allowing people, goods, information to move freely, for communities, businesses to prosper, to deliver a low carbon economy, a sustainable transport network, improvements in digital communications, to manage water, waste, risk of flooding.

At the event, delegates will look at how renewed investment in public infrastructure is vital for the economy to flourish. Our speakers will discuss the vision to bring long-term stability to investment, explore innovations in finance, the potential of public-private partnerships, new investment models. Delegates will hear the best ways to improve infrastructure on a regional and national level and how to secure private investment

Technology Request

Online video editing solution

A French company, which specializes in rich media products and services for Web/Mobile 2.0 has developed an innovative technology providing a feature-rich Online Video Editing functionality to websites, businesses and users.

Electronic dimmer switch for heating matting sought

A German SME developed a novel (bed) matting using infrared technique to put under or into a mattress to keep it dry and warm. The maximum temperature which can be reached is 75 degrees Celsius.

Research / Innovation and Entrepreneurship

Six Benefits of Developing an International Business Plan

Too many companies start off their export business without evaluating markets or market entry options for their products and/or services. Some companies may enjoy some level of success in the beginning with this haphazard approach, however many opportunities will most likely be overlooked. Additionally, if your company's export experiences are unsuccessful because of poor planning, it is likely your company may abandon exporting altogether.

An International Business Plan will increase the chances that the best options will be chosen, that resources will be used effectively, and that efforts will consequently be carried through to success. It offers a step by step approach using the best tools at your disposal and the appropriate use of your company's assets to help ensure success in this business.

Once you have decided that your company is able and committed towards exporting, the next step is to develop an International Business Plan that offers six immediate benefits:

1. Provides a "SWOT" analysis in polishing an export strategy
2. Becomes a part of the marketing plan for the company with clear goals/objectives
3. Communicates to others the scope and nature of the plan
4. Allocates responsibilities and provides for an evaluation of results
5. Helpful when seeking allocation of funds, assets towards international business or seeking financial assistance from lenders and/or investors
6. Provides management a clear roadmap of what will be required of them and develops consensus and support to ensure a commitment to exporting.

Building an international business takes time. Rarely are there any successful over-night stories found in overseas trade. The execution of the International Business Plan can ensure that you and/or your company will finish what it begins and that the hopes that prompted its export efforts will be fulfilled. It's Time to Think Global for small business opportunities. The following links will take you to important resources for success:

Partner Search

Occam, a Portuguese SME is looking for cities and SMEs

FleetPRO will develop work towards the empowerment of fleet owners/managers to promote green fleet procurement. Its main goals are the following:

- Promote the take up of European policies on green fleet procurement (e.g. Clean Vehicle Directive);
- Promote a more rational composition of fleets through the optimization of procurement processes by introducing operational criteria on the selection model.

FleetPRO will target both public and private organizations that detain light vehicles for their daily operations, even though their core business isn't focused on transport services. The consortium will have representations of the main stakeholders targeted by the action and also foresees the development of at least 3 pilots in order to demonstrate, fine tune and validate the procurement methodology. The consortium is looking for cities with municipal fleets and for SMEs with medium/large fleets (between 50-250 light vehicles) from EU countries.

Contact Mrs Sofia Taborda, Tel: +351 918 815 559, www.occam.pt ; www.facebook.com/occam.fb

Call For Tender / Proposals / Applications / Fundings / Awards

European Alliances for Mobile and Mobility Industries and Creative Industries

Policy

The launch of Social Innovation Europe initiative

In March 2011 the European Commission launched the Social Innovation Europe initiative with the aim to:

- connect projects and people who can share experiences and learn from each other;
- develop an easily accessible resource bank;
- develop a resource bank of up to date policies at local/national levels and provide information on funding opportunities;
- facilitate new relationships between civil society, governments, public sector institutions, relevant private sector bodies
- develop concrete recommendations in financing and in upscaling/mainstreaming of social innovation in Europe

Download the agenda of the launch event: http://ec.europa.eu/enterprise/policies/innovation/files/agenda-social_en.pdf

Genomica: The EC has published a public consultation on the eHealth Action Plan covering the period 2012-2020

The consultation will run for eight weeks until 25 May and stakeholders are invited to complete an online questionnaire. This will be the second European eHealth Action Plan and will consolidate and build on activities which have been carried out to date, in order to provide a longer term vision for eHealth in Europe. More specifically, the EC plans to: increase awareness of the benefits and opportunities of eHealth, and empower citizens, patients and healthcare professionals; address issues currently impeding eHealth interoperability; improve legal certainty for eHealth; and support innovation and research in eHealth and the development of a competitive EU/global market. The results of the consultation will be used to draft a policy document setting out the eHealth Action Plan, in 4th quarter of 2011.

Events

Cosmopolitanism in a Wider Context: Conceptualizing Past & Present International Conference at Södertörn University - The Nobel Museum, Stockholm, 24–26 November 2011

Cosmopolitanism has been a major topic in academia since the end of the cold war. While cosmopolitanism and multiculturalism have been recognized officially, xenophobia has become more intense. Is cosmopolitanism a way out of the xenophobic state, or is the interest in cosmopolitanism in itself adding to antagonism and disrespect for human rights? The problem can be highlighted from several different aspects. However, cosmopolitanism has been extensively theorized within the social sciences, where the semantic field often tends to be separated from its historical context. In an effort to make the academic discussion more responsive to conceptual/historical perspectives, we would like to gather researchers with different backgrounds to an international conference on cosmopolitanism, with a special view to its conceptual history. The aim of the conference is to present a new perspective on a contemporary discourse, which is often dominated by ahistorical presumptions. The conference seeks to create a meeting between the social sciences-humanities in order to examine how the history, prehistory, of cosmopolitanism has left traces in contemporary notions, perceptions. We are interested in how the history of the concept says something about the often contradictory meanings attributed to the term today—empirically, theoretically, and normatively.

Abstract submission Proposals of maximum 400 words, together with a registration form, should be sent to Kristian Petrov cosmopolitanism@sh.se before 19th May 2011

The yearly European Conference provides a forum for the presentation, discussion, dissemination, generation of new ideas in the fields. The Conference adds scientific contributions in the speeding the accomplishment of successes in above, very important scientific and technical fields. The Conference adds add contributions at the speeding of the implementation of the Hydrogen Economy, Renewable Energy sources / RES & EEB Energy Efficient Buildings, IT & C in Energy Applications. The Conference creates projects, projects proposals and European research consortia.

The Conference generates important influences, promotion, at the dissemination, awareness creation, correct information and responses from the stakeholders and end-users, and the creation of the EU Research and Activities Consortia and of EU Projects Proposals BROKERAGE. The papers will be printed in the Conference Preprints Handbook.

IEEE ICC 2012, June 10-15, 2012, Ottawa, Canada

The 2012 IEEE International Conference on Communications (ICC 2012) is the flagship conference of IEEE Communications Society. IEEE ICC 2012 is aimed at addressing a key theme on "Connect - Communicate - Collaborate." The program will feature major Symposia, Industry Forums, Workshops and Tutorials.

2nd IEEE SmartGridComm 2011, October 17-20, 2011, Brussels, Belgium

Final Call for Papers: Submissions due May 6, <http://www.ieee-smartgridcomm.org/2011/cfp.html>

The IEEE SmartGridComm is centered on all communications aspects that are relevant to the Smart Grid, aims at bringing together researchers from Academia, Industry, National Labs to exchange novel ideas, explore enabling technologies, discuss innovative designs, share field trial experiences and lessons learnt. Authors are invited to submit original papers (2-column IEEE format and up to 6 pages) on all aspects of Smart Grid Communications, including but not limited to:

- Architectures and Models for the Smart Grid <http://www.ieee-smartgridcomm.org/2011/1.html>
- Smart Grid Network and Service Device, <http://www.ieee-smartgridcomm.org/2011/2.html>
- Wide-Area Monitoring, Control and Protection – WAMPAC, <http://www.ieee-smartgridcomm.org/2011/3.html>
- The Whole Picture: Sense, Communicate, Compute, Control, <http://www.ieee-smartgridcomm.org/2011/4.html>
- Communication Networks for Smart Grid, <http://www.ieee-smartgridcomm.org/2011/5.html>

- Cyber and Physical Security and Privacy, <http://www.ieee-smartgridcomm.org/2011/6.html>
 - Smart/Virtual Metering, Demand Response, Dynamic Pricing, <http://www.ieee-smartgridcomm.org/2011/7.html>
 - Interconnections & Communications of Electric Vehicles & Smart Grids, <http://www.ieee-smartgridcomm.org/2011/8.html>
 - Virtual Power Plants, Microgrids, Renewables & Storage, <http://www.ieee-smartgridcomm.org/2011/9.html>
 - Standardization, Interoperability & Coexistence & Regulation, <http://www.ieee-smartgridcomm.org/2011/10.html>
 - Getting Practical: Field trials, Deployments and Lessons Learnt, <http://www.ieee-smartgridcomm.org/2011/11.html>

International Workshop From Young Researchers to Future Discoveries, September 19-21 2011, Kiten, Bulgaria

The Institute of Information & Communication Technologies, Bulgarian Academy of Sciences organises a dedicated workshop, aiming to encourage young researchers to create innovation. The invitation is open for outstanding young participants in Maths, Computer Science, Natural Sciences from South-East Europe, more especially from Bulgaria, Romania, Turkey, West Balkans. The FET Unit (Future & Emerging Technologies) at EC DG INFSO is a workshop co-organiser. Abstracts from potential candidates to attend the workshop are requested till May 30, 2011.

The workshop invites 50-60 young researchers who are willing to share innovative ideas in their respective domains.

The participants will be selected based on submitted informal "motivation letters" – abstracts containing short descriptions of novel views in some domain.

1st Conference EU Inside-Out: Europe and Europeaness Exposed to Plural Observers, Vienna 23–25 June 2011

The event aims exactly to refresh a broader approach and understanding of Europe by enlarging the platform of regular conferences and workshops for a wider arena of participants, disciplinary backgrounds in order to put on stage a worldwide monadology for such concerns. The conference aims to enable critical alternatives to the disciplinary orthodoxy by creating a framework for interaction and dissemination of diversity that has to become once more a EU trademark.

The conference also aims to become a confrontational space for alternative methodologies, provocative puzzles, inter, multi, trans-disciplinary understandings of wider, also for thinner specialized issues of concern for or about EU of today. In a way, such a conference aims to become a moment of return to the European specificity of critical self-understanding through dialogue, debate with all the discursive or narrative traditions that directly/indirectly constitute its self.

Selected papers will be published in an electronic volume with ISBN after the confirmation of the authors and a double peer-review process based on an agreed publication schedule. All the papers selected for publication should be original and must not have been published elsewhere. All participants to the conference will receive a copy of the volume

Training Events / Jobs

Calendar of training courses in nanoscience and electronics

Polymer Microfabrication (2 days)	03-04.05.2011	Karlsruhe (DE)
Advanced Logic Equivalence Checking with Encounter Conformal EC-v7.2	03.05.2011	France
New Trends in Nano-Electronics	05.05.2011	Switzerland
Surface Analysis with AFM	06.05.2011	Germany
Extended Checking with Encounter Conformal EC v9.1	06.05.2011	France
Nano - Engineering	09.05.2011	Switzerland
Cantilever based Sensors for Nanoscience	10.05.2011	Germany
Analog Modeling with Verilog -A v7.2	11.05.2011	Germany
Energy Harvesting	12.05.2001	Zurich (CH)
Virtuoso Spectre Circuit Simulator	16.05.2011	Germany
Behavioral Modeling with Verilog-AMS V2.3	18.05.2011	UK/ Sweden
Microfabrication Processes	19-20.05.2011	Neuchâtel (CH)
Advanced Digital Physical Implementation flow - IDESA	23.05.2011	Spain
Laser Micromachining	25.05.2011	Vienna-Austria
Formal Analysis Advanced With Incisive Formal Verifier	25.05.2011	Germany
Photon Detection and Counting Techniques	27.05.2011	Switzerland
New Trends in Nano-Electronics	1.06.2011	Lausanne (CH)
Wafer Bonding	16.06.2011	Zurich (CH)
Basic Introduction to CMOS Image Sensors	22-23.06.2011	Delft, NL

6th Southeast Europe and EU - Leadership Development Programme has been launched

Deadline for Application is 27 April 2011

More... <http://www.seeyoungleaders.org> ; rana.birden@isbank.net.tr

Harvard Kennedy School Education program Public Leaders in Southeast Europe, Athens, Greece, 6-9 June 2011

Public Leaders in Southeast Europe is a 4-day HKS Executive Education program offering participants analytical, problem-solving tools that are critical for advancing individual/organizational goals, vital for generating, managing, leveraging innovation in an era of growing global complexity, including modules in: - Negotiation & Conflict Management ; -Innovation in Governance ; -Communication

Led by faculty who are luminaries in their fields, Public Leaders in Southeast Europe is designed exclusively for senior professionals in the public/nonprofit sectors in Southeast & East-Central Europe, their nonprofit/non-governmental counterparts who have significant input, a key role in the strategy/functioning of their organizations. Applicants should have a minimum of 10 years of professional experience, demonstrated commitment to public service.

Fluency in writing, reading, and speaking English is essential.

6th Summer School for Young Professionals, Challenges of Global Security Environment, 25 June-3 July 2011, Armed Forces Academy of General M. R. Štefánik, Liptovský Mikuláš, Slovakia as well as in Uzghorod in Ukraine.

The structure of the teaching at the summer school is aimed to provide students with fundamental knowledge concerning security policy, including the main actors of security policy in Europe; main security threats of today such as cyber terrorism, strategic defence review, extremism, conflict regions, current event in Middle East, Africa and energy security. It is a weeklong forum that is focused on the current challenges of international security policy.

One of the main objectives of this international summer school is the preparation of young professionals to be able to act within the area of foreign, security policy. Interactive discussions, lectures led by top speakers from various international organizations will therefore focus on open exchange of ideas and interaction of participants from different backgrounds. Summer school is intended for master and doctoral level students of political science and/or international relations who are interested in the foreign and security policy issues.

3 Doctoral Scholarship in the field of Materials & Surface Technology at DTU in Denmark

Department of Mechanical Engineering is looking for 3 Ph.D. in Materials and Surface Technology related to strengthen our strategic research activities in Materials in Sustainable Energy Applications. The section for Materials and Surface Engineering is involved in externally financed national and international strategic research programs through which the following Ph.D. positions have become available.

Modeling of high temperature corrosion of metals in biomass-fired power plants (financed through the Danish Research Council for Strategic Research). This PhD project addresses the modeling of the interaction of metallic materials with aggressive environments as occurring in biomass fired power plants, most notably under hot corrosion conditions. A combination of materials modeling and experimental investigations under laboratory conditions will be used to arrive at designing alternative materials that potentially can withstand hot corrosion environments. **Deadline:** May 2, 2011.

Italy Master Scholarships University College of Turin 2011-2012

All students accepted have the possibility of receiving partial and in most cases full scholarships to attend our program (including accommodation, monthly living stipend, travel expenses). IUC offers a 1 year LLM program in Comparative Law, Economics, Finance, 2 year MSc. A number of renown intellectuals/scholars serve on the faculty/advisory board.

Our students are from more than 40 different countries, spanning 4 continents, representative of a diverse range of disciplines, cultural backgrounds, with a focus on offering opportunities to students coming from social, economic, political challenges, particularly students from former colonized territories (e.g., the global south), other newer peripheries.

The deadline for all application materials is May 15th, 2011 by midnight CET.

Application and Application Instructions, can be downloaded from our website: <http://www.iuctorino.it/content/application>. For admissions inquiries please contact the Admissions and Records Officer Jane Osabiku: josabiku@iuctorino.it, for nominations of deserving candidates please contact the Dean of Students, Saki Bailey sbailey@iuctorino.it.

University of Bologna, The international Master of Arts in Interdisciplinary Research & Studies on Eastern EU

MIREES is a Second cycle Joint Degree (120 ECTS), awarded by the University of Bologna (Forlì Campus) in cooperation with the Vytautas Magnus University at Kaunas, the Corvinus University of Budapest, and the Saint-Petersburg State University. MIREES is an innovative graduate programme, taught entirely in English, devoted to students that have a BA background in Economics, Politics, International Relations, History, Agricultural, Cultural studies at large, would now like to acquire a specialized, in-depth knowledge of the Post-socialist Countries in transition, the new EU member States after the Enlargements of 2004 and 2007, as well as the New East-European Neighbour Countries.

The programme includes an period of international mobility (6 months), to enhance the learning value of the whole 2nd cycle degree programme through the attendance of (linguistic & subject-related) course units with their relative tests, for field research which the students will implement in preparation of their dissertations. The deadline is May 16th, 2011.

3rd Science Communication Training for Europe's Scientist, Dubrovnik, Croatia, 17 July - 3 August 2011

ESCONET (European Science Communication Network) aims to help scientists to make the best out of this, helping them to develop the skills and confidence to interact with media, engage with ordinary citizens, to advise and persuade policy-makers and to get clearly heard. The training is taking place at the Centre of Advanced Academic Studies, over a series of 5 workshops. The courses are open to scientists, researchers across EU, from all disciplines, backgrounds, regardless of their source of funding. Participation is not limited to EC FP6/FP7 funded researchers, which was the case previously.
